

## **Updates and New Information – 10/09/17**

At this time the tours to Fallon Naval Air Station are filled. The rest of the tours are receiving a good response but there is still plenty of room at this time. As we get closer and tours fill up we will post that information on this web site.

There has been a schedule change for the technical seminars. The change was made to allow everyone the opportunity to attend any seminar without a conflict with the other seminars. If you want to make changes to what you signed up for please contact Steve Lewis at [2018mafcaconvention@gmail.com](mailto:2018mafcaconvention@gmail.com) or 707 829-9007.

**7:30-8:30 – #3 - Do It Right using the Guidelines to restore and buy parts.**

**9:00-10:00 – #1 Hubley Speed Shop**

**10:30-12:00 - # 2 Model A Brakes and Pedal Adjustment**

**1:30-3:00 – # 4 Model A Electrical Wiring and Troubleshooting**

Please check our website in the Updates section periodically for the most current information.
